Pre-Engineered Steel Buildings

Heavy Fabricated Structures

Structural Solutions

Multi Storage Buildings

Pre-Fabricated Houses

Our Product : Pre Engineered Building

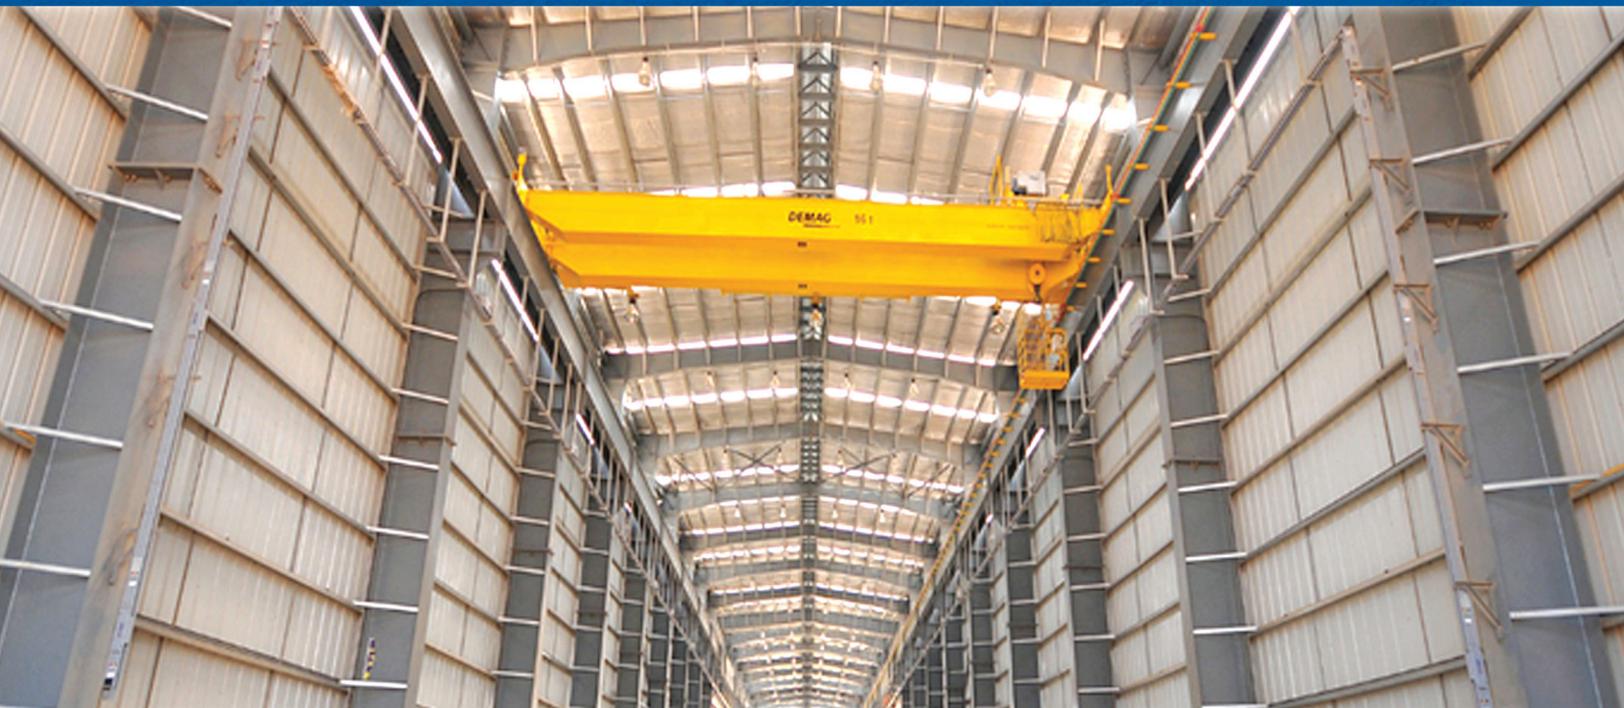

Pre-Engineered Buildings (PEBs) are the latest trend in India. A PEB is a metal building that consists of light gauge metal standing seam roof panels on steel purlins spanning between rigid frames with light gauge metal wall cladding. They drastically reduce construction time. Maintenance is also extremely low. PEBs optimally utilize resources, and leverage technology to the maximum. PEBs have gained a global reputation for durability, water and earthquake resistance. PEBs are tremendously versatile - they are easy to set-up, expand, modify, and transport to different locations.

They are environmentally friendly and can be aesthetically designed with unique features. An estimated 20-30% can be saved on cost, as compared to conventional building methods.

PEBs can be delivered to a site in just 5 to 8 weeks - conventional steel structures take as much as 20 to 25 weeks to complete. The unique techniques employed during fabrication help PEBs be up to 30% lighter than regular steel products. No welding or fabrication is required at the construction site; resulting in greater speed and efficiency.

Advantages of PEB

- ▶ Very economical
- ▶ Quick delivery with express installation
- ▶ Low maintenance Wide spans and high eave heights
- ▶ Design and architectural flexibility
- ▶ High quality
- ▶ Easy to expand
- ▶ Single source responsibility
- ▶ Fast quotation along with proposal renderings
- ▶ Environmentally friendly
- ▶ Energy efficient
- ▶ Water and earthquake resistant.

Who we are ...

SMART PRE ENGINEERED BUILDING SYSTEMS is one of the Pre-engineered steel building (PEB) companies in India located at SMART CITY, KAKINADA. It is one-stop-solution for all building requirements of varied customers. Our pre engineered steel buildings are uniquely designed and fabricated to suit your requirements.

We have highly skilled and motivated professional, structural and civil engineers with key specialist knowledge of structural steel work design. The professional are having an experience of 20 years of excellence in PEB industry.

ACCESSORIES

We can be designed with your Choice of a variety of attractive and architecturally sound accessory options. Windows, doors, natural lighting and ventilation accessories are available to fit almost any of your requirements.

Personal Door

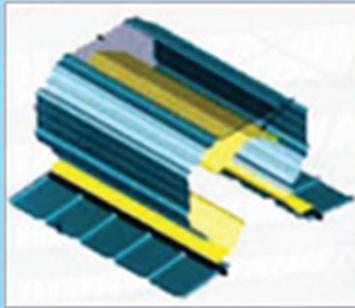

Roll-up Door

Sliding Door

Window

Ridge Ventilator

Power Ventilator

Louver

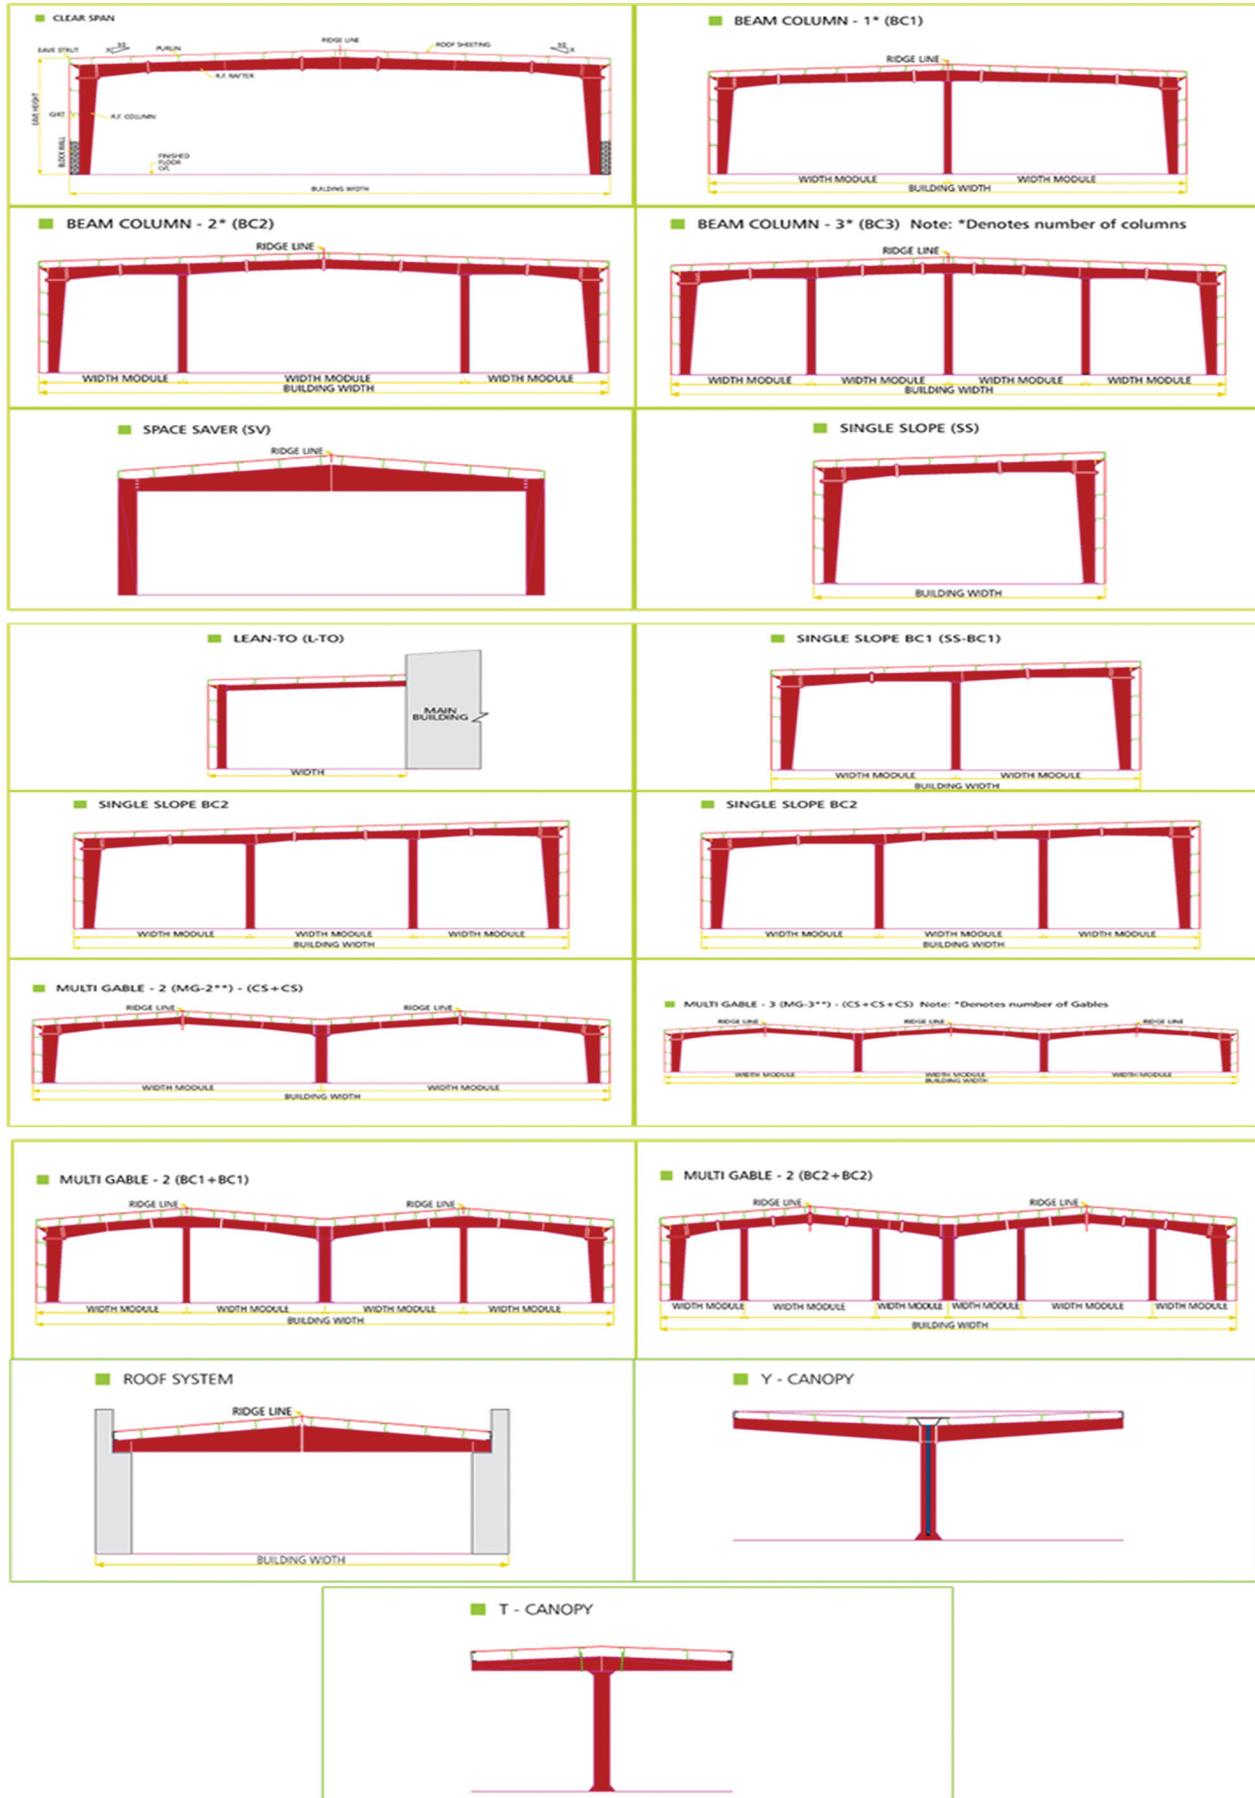

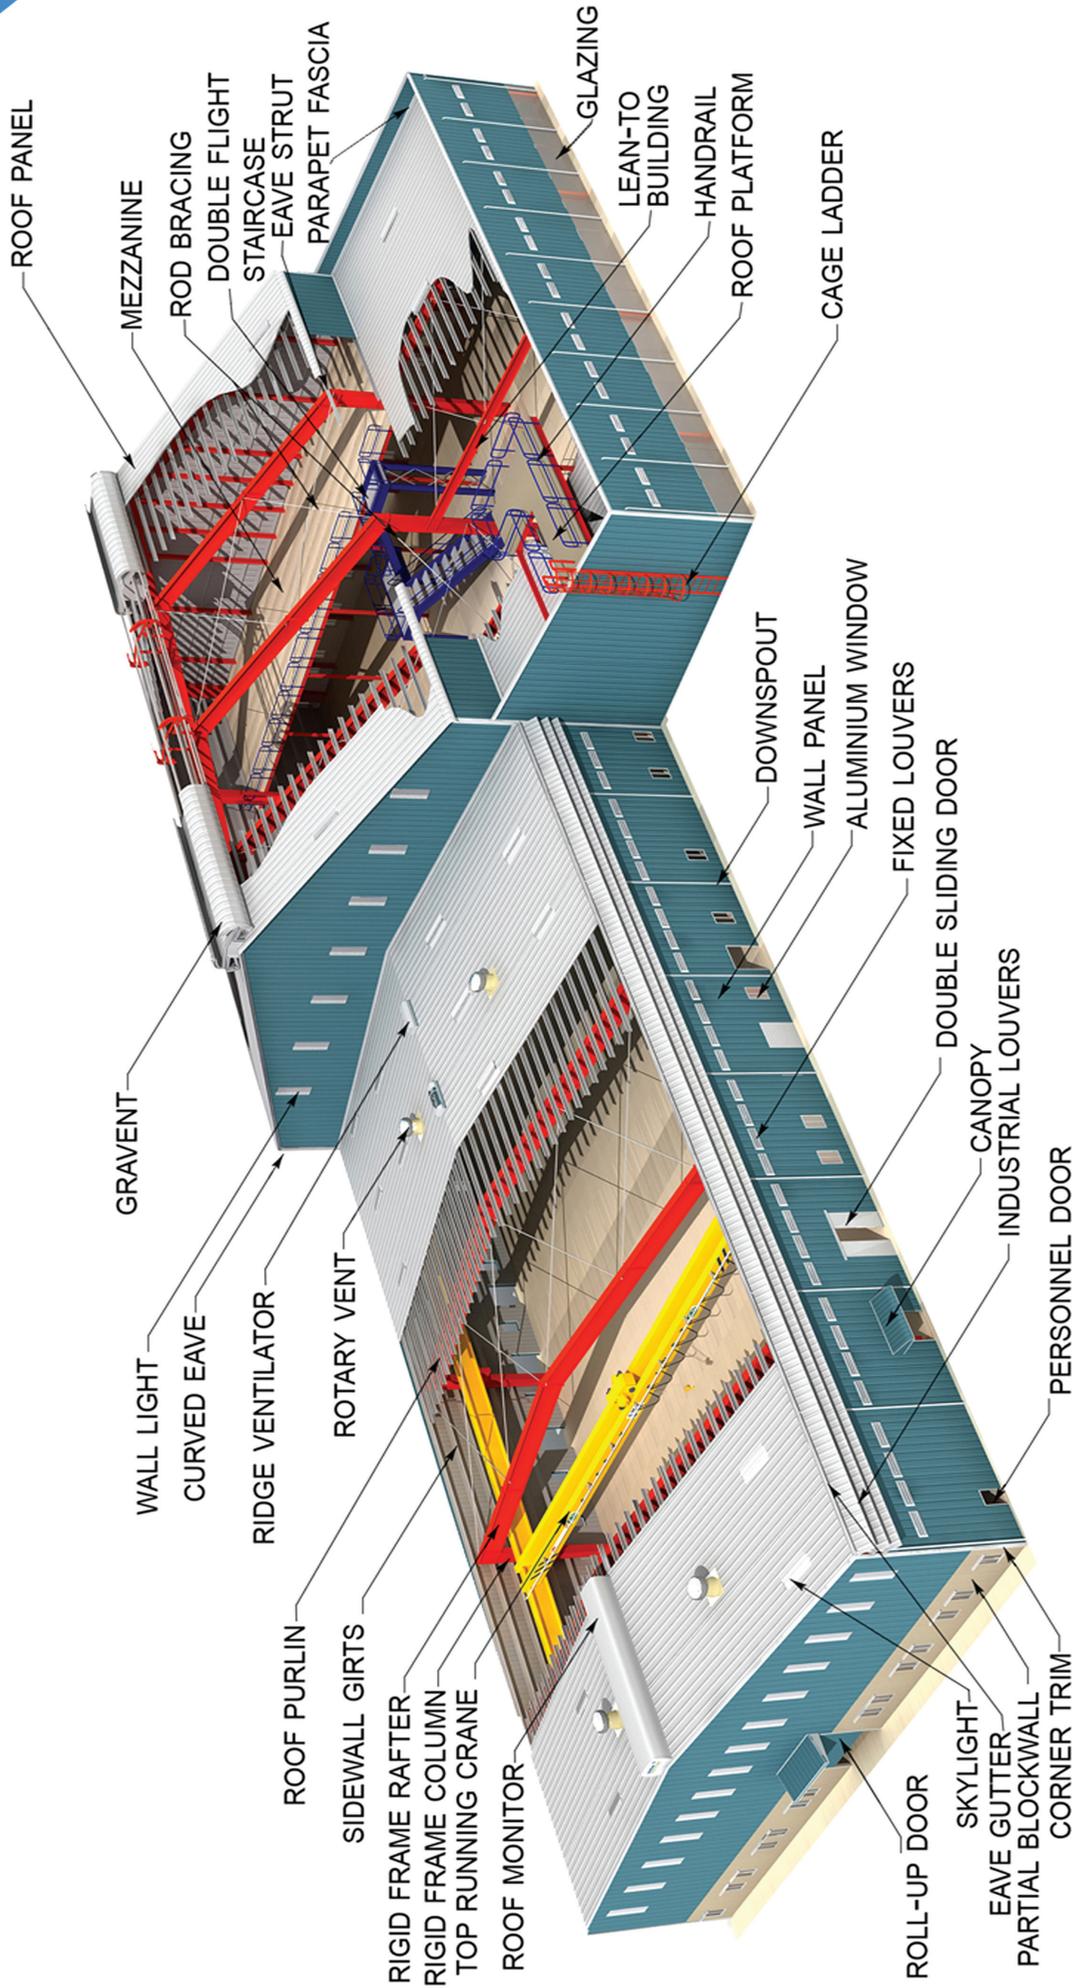

Sky Light

Insulation

At SMART PEB, practically any geometric frame is possible.
Some of the most commonly used primary framing systems is featured below...
